

CASE STUDY Metal Fabrication Company

AT A GLANCE

Challenges

- Customer cutting 1/4" mild steel
- Operating 4,000-6,000 hours per year
- Locked into gas contract paying \$1.25 per ccf for micro-bulk supply of liquid nitrogen

Benefits

- Annual savings: \$152,680
- Projected 7-year savings: \$1,068,760
- >80% Nitrogen cost reduction: From \$1.25/ccf to \$0.20/ccf

"Liberty Systems' P7 nitrogen generator has transformed our operations. We've eliminated the headaches of gas contracts and dramatically reduced our costs. The reliability and support have been exceptional."

Randy Hallman, Owner
Precision Laser Processing

**Don't let gas contracts hold you hostage.
Produce your own nitrogen 24/7 with Liberty Systems
and experience the freedom of on-demand gas generation.**
